

Editorial Statement

Beginning with Issue 1, Volume 36, 2018, the new title, *Journal of Oceanology and Limnology* will be used officially, with the new ISSN numbers of 2096-5508 (print) and 2523-3521 (online).

In 2017, we encountered a lengthy authorization procedure on the title change due to certain technical reasons. Dozens of accepted articles had to be published online under the old title of *Chinese Journal of Oceanology and Limnology* (ISSNs: 0254-4059 (print) and 1993-5005 (online)) to meet the strong credential need of the authors and affiliations. Obviously, these online-published papers now will be printed out under the new title, which may cause inconvenience in the citation of these articles.

Therefore, the Editorial Office and the Publishers declare that: all the articles printed in this issue shall be cited using the new title of *Journal of Oceanology and Limnology*, while those with the old ISSNs are listed below.

The Editorial Office expresses our sincere thanks to all the involving parties for the understanding and cooperation, and apologies for the problems that may occur.

The Editorial Office

Journal of Oceanology and Limnology

September 2018

The list the articles in this issue with old ISSNs with DOI:

First author	Title	DOI
GUO Jie	Impact of tropical cyclone Matmo on mixed zone of the Yellow and Bohai Seas	https://doi.org/10.1007/s00343-018-7085-x
Oscar Omondi DONDE	Integrated site-specific quantification of faecal bacteria and detection of DNA markers in faecal contamination source tracking as a microbial risk tracking tool in urban Lake ecosystems	https://doi.org/10.1007/s00343-018-7107-8
WANG Weicheng	Zooplankton community structure, abundance and biovolume in Jiaozhou Bay and the adjacent coastal Yellow Sea during summers of 2005–2012: relationships with increasing water temperature	https://doi.org/10.1007/s00343-018-7099-4
